# DISCRIMINATION WINS !!!

In every walk in life discrimination between the true and the false wins and enjoys success. In questions of form, of style and of values, whether financial, commercial or medicinal, the judgement of the men and women who select and appreciate and utilize the true and genuine product, proves most profitable and most satisfactory to themselves and to all who follow them.

Therefore, in connection with so important a subject as the physical well-being of the people, the most eminent physicians insist on full information as to the wholesome nature and truly beneficial character of the component parts of the remedies used and prescribed by them, and the wise manufacturer not only supplies them with the knowledge desired, but also combines for them in proper proportions the very substances most approved by them and omits every objectionable substance. The world-wide acceptance of Syrup of Figs and Elixir of Senna by physicians and the well-informed of the world, as the best of family laxatives, is due to the universal satisfaction which it has given for more than a quarter of a century and also to the fact that it is a remedy of known quality and known component parts and to the further fact that the California Fig Syrup Co. presents it to the world simply as the ideal strengthening personal laxative to cleanse and sweeten the system gently, yet effectually, and to dispel colds and headaches and to assist in overcoming constipation. To get its beneficial effects—always buy the original and genuine, for sale by all leading druggists. The full name of the company—California Fig Syrup Co.—is always plainly printed on the front of every package.
